- Additional key figures & risk information
- Analysis, presentation & export

What is Wirtschafts-Compass?

Wirtschafts-Compass brings together up-to-date information on Austrian and international companies and individuals on one platform. Shareholdings, ownership structures, key figures and compliance information are linked, making economic relationships easy to identify and analyse.

In-depth analysis with Group Structures

01

Understand corporate relationships

Trace shareholding structures and make connections between companies and individuals visible.

02

Identify risks in context

View PEPs, insolvencies, dummy companies, sanctions, Russia-related exposure and beneficial owners directly within the corporate environment.

03

Analyse structures interactively

Arrange, group and colour-code objects, add comments, and navigate complex structures using filters and search.

04

Use and share results

Prepare Group Structures for presentations and analyses and export them as PDF or SVG. Company key figures can be included directly.

Wirtschafts-Compass is particularly useful if you want to ...

- analyse complex corporate groups,
- trace shareholding structures across multiple levels,
- include individuals and ownership relationships,
- identify beneficial owners,
- assess companies and their environment for risks,
- prepare Group Structures for meetings, analyses or documentation.

Discover Wirtschafts-Compass

- Interactive Group Structures
- Up-to-date company, person and association data
- Compliance tools
- Shareholdings & ownership structures
- Beneficial owners
- Company key figures & annual financial statements
- Over 60 filters for customised selections

from € 24.- per year
